

Use the Recovery Rebate Credit Worksheet in the TY2020 Tax Program

The **Recovery Rebate Credit** is authorized by the Coronavirus Aid, Relief, and Economic Security (CARES) Act. More details about the Recovery Rebate Credit are available [here](#) at IRS.gov.

Any eligible individual who **did not receive any and/or the full amount** of the recovery rebate (aka *stimulus* or *economic impact* payment) as an advance payment, can claim the Recovery Rebate Credit on a 2020 Form 1040 or Form 1040-SR. Generally, this credit will increase the amount of the taxpayer's TY2020 refund or lower the amount of the tax they owe (any EIP over-payments do not impact the refund calculation and do not have to be paid back). These forms can also be used by people who are not normally required to file tax returns but are eligible for the credit.

- The second payment is considered a 2020 event and is incorporated into the Recovery Rebate Credit on the TY2020 federal return. This is true even though some payments will not be received by taxpayers until early 2021.

Important Tax Program Note: While IRS states taxpayers “do not need to complete any information about the Recovery Rebate Credit on your 2020 Form 1040 or 1040-SR if you received all your recovery rebate in 2020”, the tax program will return an informational **Verification Warning Message** if you do not complete the Recovery Rebate Credit Worksheet on the tax return.

Note: This message is simply an informational warning and **does not** prevent the e-Filing of the tax return.

This helpful guide provides easy instructions for how to complete the **Recovery Rebate Credit Worksheet**, including how to enable or disable the displaying of *Verification Warning Messages* if you choose that option.

Option 1 (Recommended): Complete the Recovery Rebate Credit Worksheet

To satisfy the Verification Warning Message, complete the **Recovery Rebate Credit** worksheet as follows:

1. Enter the amount of payment(s) received, including any off-set amount that was withheld from the payment(s) by the Treasury Department (*off-sets were limited to child support*).

Note: If taxpayers are uncertain of the amount they received, they should locate and refer to **Notice 1444** (Payment 1) and **Notice 1444-B** (Payment 2) the IRS sent to all taxpayers who received payments.

2. If no payment(s) were received, mark the applicable check box in each column.

Enter the amounts, if any, of the stimulus payments you received (before offset) as shown on Notices 1444 and 1444-B. If you filed a joint return for 2019 and received the stimulus payments you and your spouse are treated as having received half of the payment. Don't include on this line any amount you received but later returned to the IRS.
